Allowable Subject Matter

Applicant traverses the Examiner's holding of claims 1-5, 7-13, and 16 as having been anticipated by Kessler and Takezawa on the grounds that the Specification clearly describes component (b) as being a materially different product from (a). (In a "Claims Analysis" section the Examiner had noted that there appeared to be full overlap between those materials that would adhere to the descriptions of (a) and (b) given the extremely broad manner in which (b) had been disclosed. The Specification does indeed stipulate that (b) is different from (a) and, thus, the aforementioned rejections are hereby withdrawn.

The prior art teaches repeatedly the employment of lactone-modified acrylic polyols as coating materials, but not always within in the context of having been combined with other film-forming resins. See, for instance, Watanabe et al., U.S. Patent # 4,916,254 and Brandenburger et al., U.S. Patent # 5,082,922. There are also a number of patents that do, in fact, contemplate combining a lactone-modified acrylic polyol with another resin that is aptly described as film-forming. See, for instance, Bach et al., U.S. Patent Application Publication No. 2005/0154076 and Sawada et al., U.S. Patent Application Publication No. 2003/0171473. However, these references require the presence of either an organic or aqueous medium into which the polymer materials are dispersed/dissolved. They are, therefore, not describing powder coating compositions as the claims require.

The references cited during this prosecution represent the most germane prior art known. Insofar as they fail to even render obvious the instant invention, claims 1-16 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc S. Zimmer whose telephone number is 571-272-1096. The examiner can normally be reached on Monday-Friday 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on 571-272-1302. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
